DIARY NOTES

DD/S

26 August 1965

25X1A 1. John Clarke called regarding the assignment of a Finance Officer to Project
25X1A [REDACTED] as agreed at the last meeting of the [REDACTED] Investment Committee
[REDACTED] had been in touch with Bob Fuchs, but they were discussing an accountant-
bookkeeper type rather than a more senior person with management expertise as John
and I had understood would be needed. Bob has arranged with [REDACTED] to review
the Project to determine what type of person is actually needed. (I advised [REDACTED]
that I was thinking more of a GS-13 level Finance Officer, but this might have to be
scaled down.) 25X1A

25X1A 2. Colonel White called concerning the decision by DD/S&T on whether the Office
of Research and Development would move to the Ames Building. I informed him that
I had made an agreement with [REDACTED] Bud Wheelon that DD/S&T could have
until 15 September to make their decision. Colonel White asked that I get a decision
prior to that date. (Alan Warfield is handling this.) 25X1A

4. John Bross called at the instigation of his driver, [REDACTED] who was upset 25X1A
because he doesn't drive an air-conditioned car. The problem has been enlarged
because air-conditioning is being installed in Colonel White's new car. John said
that he is cheerfully willing to pay for the air-conditioning himself to get the matter
settled. (Alan Warfield is handling this.)
